---

**REMARKS:**

Jose:

As we had discussed, the USTs documented in the 1993 Harding Lawson report are not located in the area that HCDCH is proposing to develop. To my knowledge, the area of the subject USTs remains under the control of DAGS and is not affected by the HCDCH project.

Attached are two maps for your reference. One map indicates the division between the DAGS area and the proposed HCDCH area. The second map shows that the subject UST area (identified in the map as Building #4) is in the DAGS area.

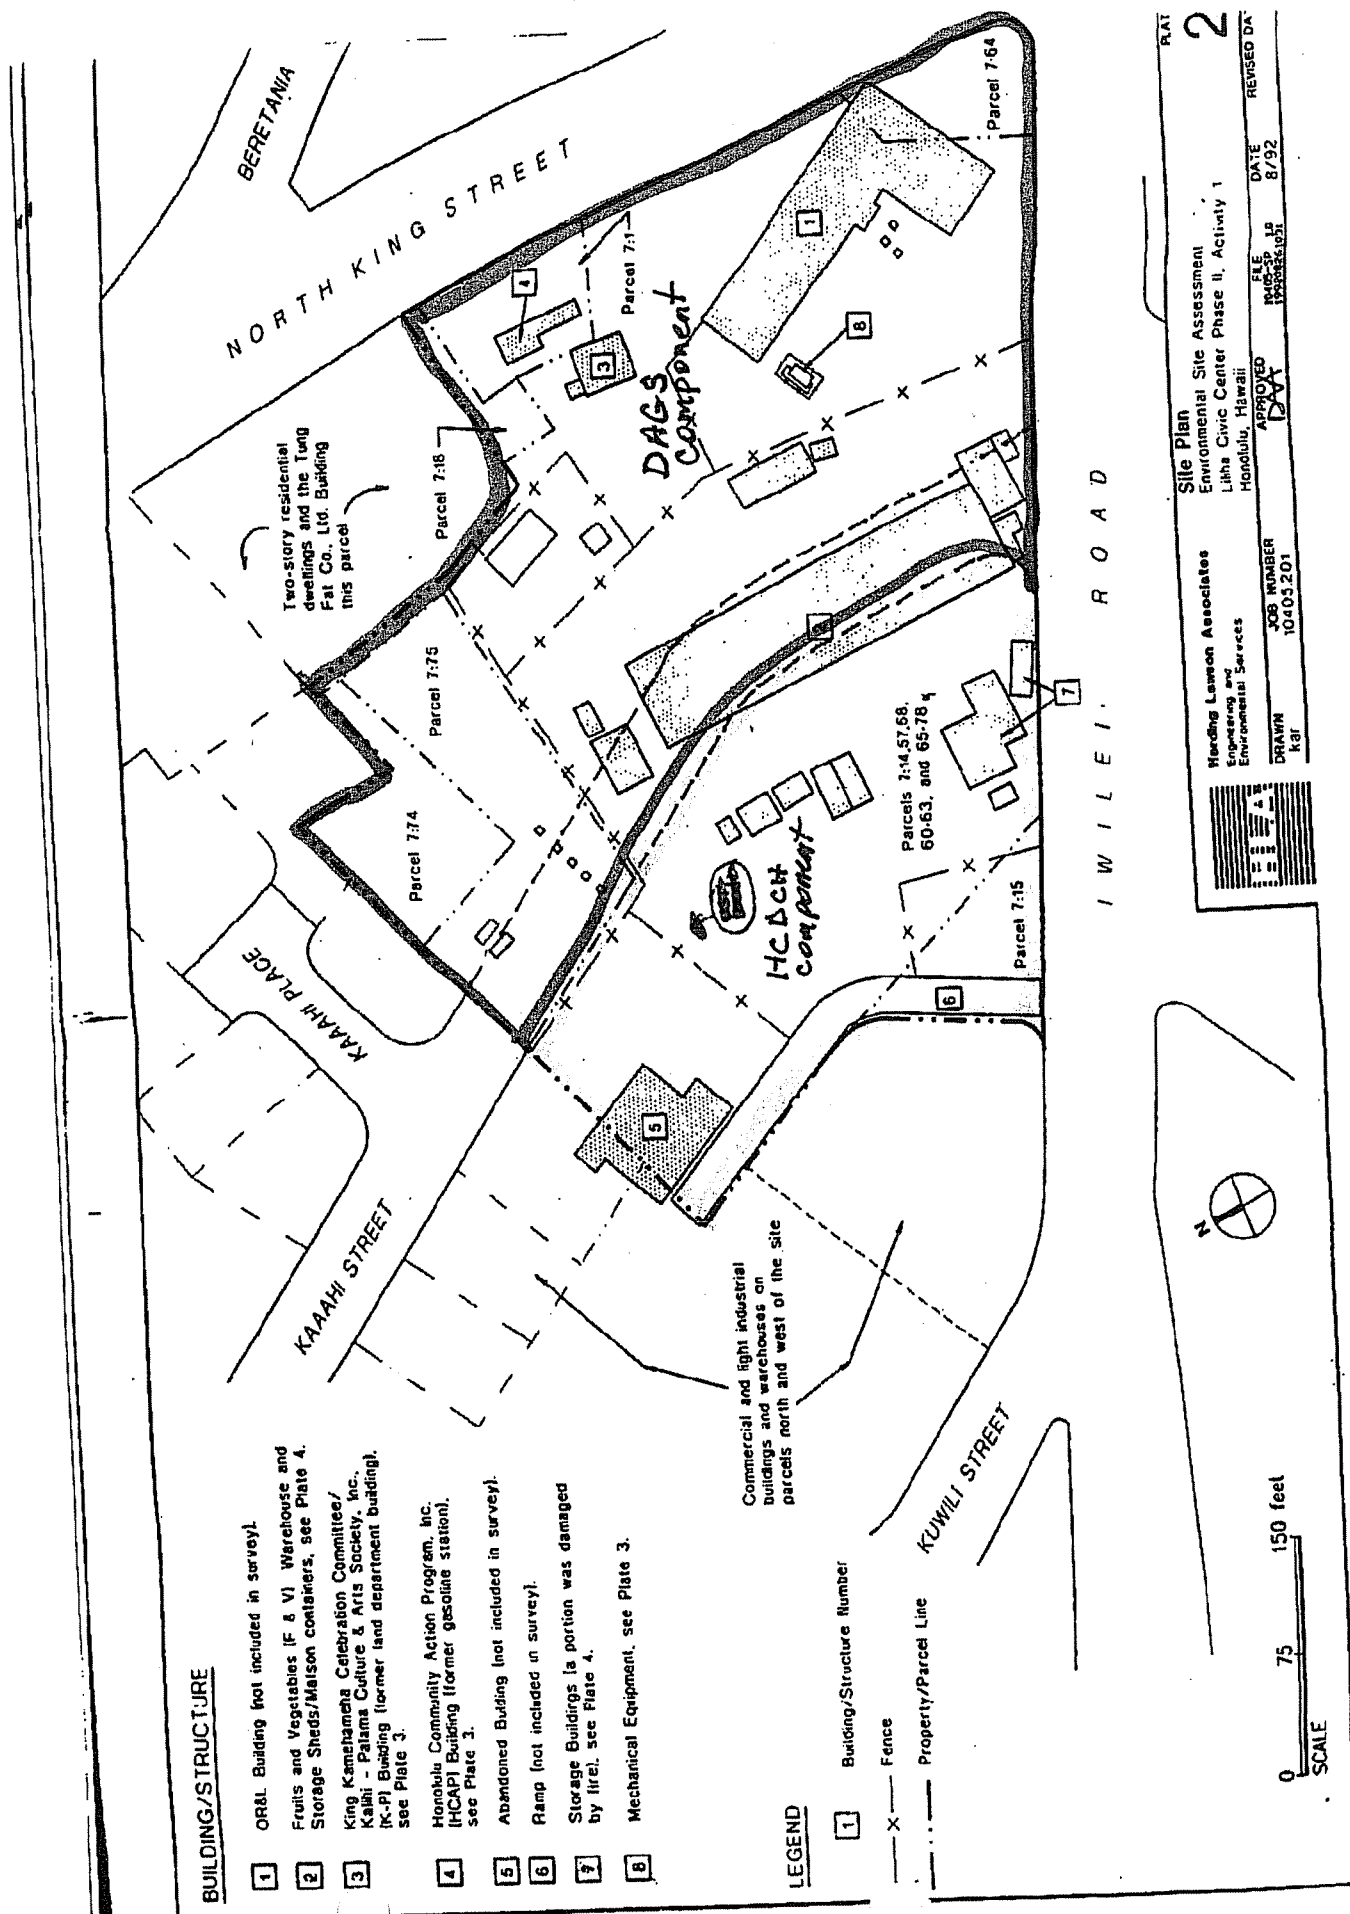

If you have any further questions, please call me at 944-8848.

Thank you.

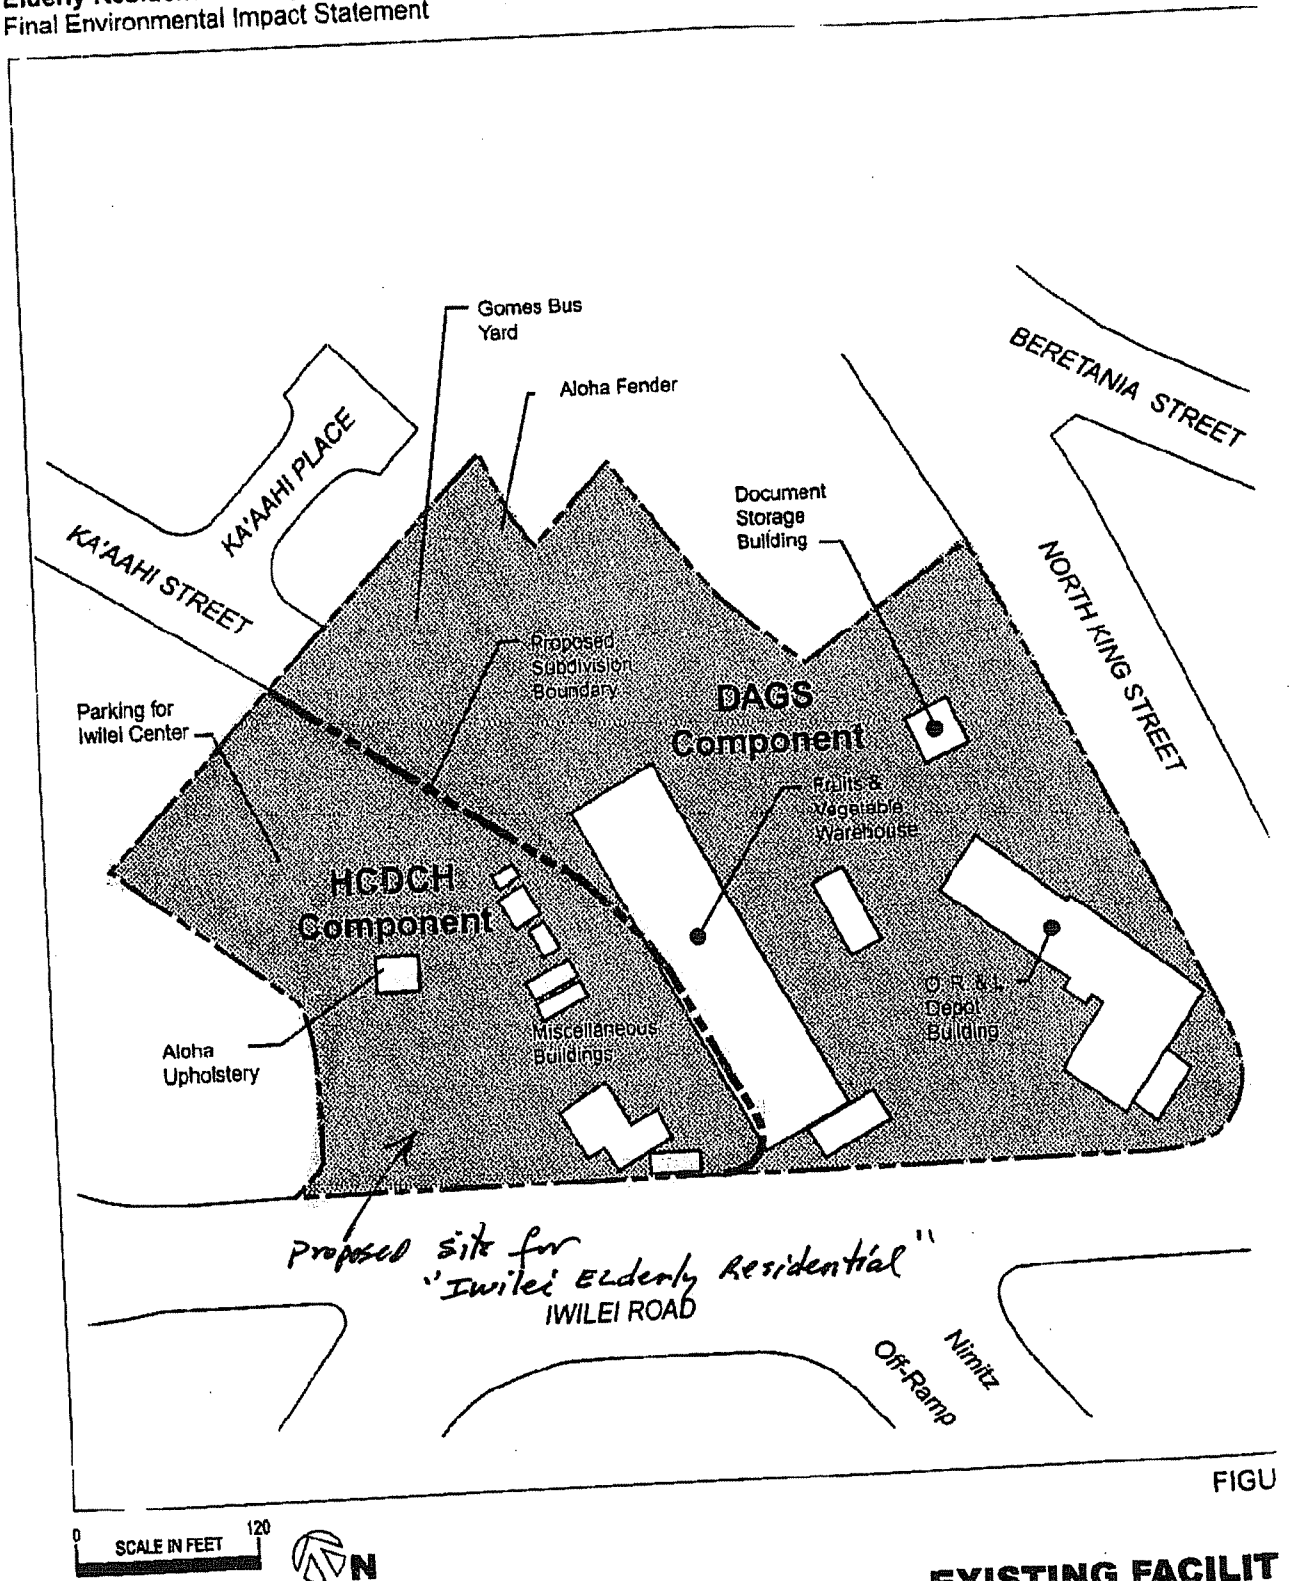

Brant

*note: need to contact Gina Ichiyama - 586-0474  
- called 2/13/02 - left message in voicemail to call  
me back. - called 2/14/02 - no longer handling the site to call  
- branch chief - 1 day - Planning Branch
